

Project Spotlight

DECEMBER 2021

FinishWorks

Builder: Ohio Dutch Construction Inc.

FinishWorks is a leading manufacturer and distributor of industrial wood and metal coatings. As a recognized leader in supplying tailored coating solutions, combining trend-setting finish design with outstanding color consistency, they have ten locations and are continuously growing and expanding.

Kirby Authorized Builder, Ohio Dutch Construction of Berlin, Ohio, completed FinishWorks' new Winesburg/Millersburg Ohio facility. This structure features multiple pre-engineered metal buildings including space for office and retail, a main warehouse, a secondary warehouse, and an approximately 169' x 83' storage area, totaling 45,000 square feet.

An innovative solution for this project included a unique and custom design for an explosion control room and venting procedures. The interior consists of racking, testing labs, mixing rooms, and showrooms. The exterior features Kirby's SS360 Standing Seam roof system in galvalume and the KirbyWall wall panel system in charcoal.
