## Sheboygan Christian School — Addition & Remodel

**Builder: Jos. Schmitt Construction Co., Inc.**

Completed in 2021 and located in Sheboygan, WI, the addition and remodel of Sheboygan Christian School, built by Authorized Builder, Jos. Schmitt Construction, encompasses 40,363 sf of new space for an addition to the existing school. The addition includes two new educational wings, a gymnasium, another classroom area, and a storage space. The education wings house new classrooms, commons space, restrooms, and teacher lounges

In addition to the Kirby structural steel, the facility utilized Kirby's Standing Seam 360 roof system in galvalume. The exterior is clad with a combination of Kirby Rib II wall panels in fox gray, wood horizontal framing, a mini-ribbed horizontal panel, and masonry. The gymnasium features Kirby's wall

and ceiling liner panels in polar white. Kirby also provided support for four 2,000 lb. suspended basketball goals.

Jos. Schmitt Construction Company started in 1899 and is still serving the construction needs of Wisconsin area residents, businesses and institutions. The company is currently in the fourth generation of the Schmitt Family.
